

Pediatric and Adolescent Gynecology Unit. University of Florence

**Intensive PAG training program**

- Presence at PAG outpatient consultations on Monday morning, Tuesday morning and afternoon, Wednesday morning, Thursday morning; on Friday morning we discuss special cases.  
In our outpatient unit we treat the most frequent clinical situations: vulvovaginitis, genital malformations, pubertal disorders, menstrual anomalies, menomethrorragias, pelvic pain.
- Office ultrasound.
- Special session of consultation for eating disorders.
- Consultation and clinical evaluation for suspected sexual abuse in children or rape in adolescents.
- Vaginoscopy or laparoscopy procedures
